

DO YOU HAVE AN INFANT WITH DOWN SYNDROME?

YOUR BABY MAY BE
ELIGIBLE FOR AN AT-
HOME, NO-COST
RESEARCH STUDY!

YOU WILL BE
COMPENSATED!

Who can participate?

- Infants with Down syndrome (Trisomy 21) younger than 12 months old (adjusted for prematurity) & their caregivers
- Caregiver has a smartphone and is willing to download a research application
- Families who live in the United States

What will you do?

- Answer several daily short surveys about what your infant is doing for 14 days over 3 month period
- Take a daily short video of your infant's natural movements
- Complete a monthly 5-minute survey about your infant's motor skills until they begin to walk
- Complete two one-hour play-based data collections (in-person or on Zoom) and track changes your child's movements using wearable sensors
